

# AKSHAY KUMAR

Bangalore, Karnataka — [kumarakshay2456@gmail.com](mailto:kumarakshay2456@gmail.com) — +91 9198711373 — [LinkedIn](#)

## PROFESSIONAL SUMMARY

---

Backend Engineer with 6.5+ years of experience building scalable distributed systems and high-throughput APIs. Experienced in designing microservices architectures, event-driven systems, and production-grade cloud deployments. Strong ownership mindset with experience developing and launching independent products.

## PROFESSIONAL EXPERIENCE

---

### SDE-3 (Backend Developer)

July 2019 – Present

*BetterPlace Safety Solutions Private Limited, Bangalore, Karnataka*

*Promoted through roles: SDE-1 (2019–2021) → SDE-2 (2021–2025) → SDE-3 (2025–Present)*

- Developed Excel-based data processing pipelines for upload and download workflows, ensuring data integrity and validation.
- Optimized AJ server infrastructure by decommissioning underutilized VMs and cleaning redundant database records, reducing infrastructure costs.
- Built high-throughput OTP notification system using SQS and RabbitMQ with failure handling mechanisms.
- Designed and developed the Staffing Campaign Service, streamlining manual campaign execution and significantly improving operational efficiency.
- Built automated Compliance Challan Processing Tool to extract ESIC contribution data from PDFs and update records, reducing manual effort.
- Set up the foundational architecture to extend existing microservices and develop additional ones for Authorization, Staffing-Campaign, Bank Account Verification (including Payout), as well as a report download service from Elasticsearch.
- Automated the creation of all template-based onboarding and offboarding letters using the Google Docs API, significantly reducing manual generation for the onboarding team.
- Integrated Exotel to confirm the onboarding of candidates, reducing the TAT for the Operations team by 50%.
- Solely manage AJ Staffing backend services while contributing to BetterPlace HRMS product development. Work closely with Operations and Support teams to ensure timely resolution of issues and smooth system operation.
- Mentored junior developers and provided technical guidance.

## ENTREPRENEURIAL EXPERIENCE

---

### Independent Product – [CashMila](#) (Cashback & Coupons)

Oct 2025 – Present

- Designed and deployed scalable backend architecture using Django, PostgreSQL, Redis, and AWS.
- Built event-driven commission and attribution engine using Celery with Redis for asynchronous processing.
- Integrated affiliate networks (VCommission, CashKaro) via secure webhooks for automated conversion tracking and reconciliation.
- Implemented push notifications using Firebase Cloud Messaging and transactional email workflows using AWS SES.
- Deployed production infrastructure with Cloudflare for DNS management, security, and performance optimization.

## TECHNICAL SKILLS

---

Programming: • Python • Golang • Java • JavaScript

Databases: • PostgreSQL • MongoDB

Messaging: • Redis • RabbitMQ • Kafka

APIs: • REST • GraphQL

Tools: • Git • VSCode • PyCharm • IntelliJ

Frameworks: • Django • FastAPI • Spring Boot • Node.js

Containerization: • Docker • Kubernetes

Search: • Elasticsearch

Cloud: • AWS (EKS, ECR, S3, Lambda, SQS, SES) • GCP

## EDUCATION

---

**M.Tech, Computer Science and Information Security**

NITK Surathkal

2019

GPA: 7.42/10

**B.Tech, Computer Science and Engineering**

UIET Kanpur

2016

GPA: 6.43/10

## ACADEMIC RESEARCH

---

Research Paper: Deep Learning (Image-Based Tomato Leaf Disease Detection)
